BICSI describes its new data center standard, ANSI/BICSI 002-2014, as the foundation standard for data center design around the world. BICSI recently released an updated version of its flagship data center standard ANSI/BICSI 002-2014 Data Center Design and Implementation Best Practices.

BICSI releases updated data center standard ANSI/BICSI 002 ...

BICSI released a new standard to provide best practices for the design and installation of data centers. Called ANSI/BICSI-002 Data Center Design and Implementation Best Practices, the standard is meant to supplement, not replace, existing data center cabling standards such as TIA-942 and CENELEC EN 50173-5.
