It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator – a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

There are not many surprises in BLUE GOLD. The primary message of Maud Barlow and Tony Clarke's book echoes the Blue Planet Project, a global campaign to assert the universal right to water, of which Barlow is one of the international leaders. It is the 'battle against the corporate world' - here in particular the 'theft of the world's water'.
