### **Rental Rate Blue Book | Equipment Cost Recovery ...**

When operating a heavy equipment rental business, rates are determined based on the profit the owner desires over a two- to four-year period. To determine what rates will provide that profit, expenses in maintaining the equipment must be considered, while also taking into account the depreciation of the equipment over time. The amount of value the equipment depreciates over time must be calculated into the rate planning as an expense (also called a "liability").
